

Hokkaido Information University

Educational Aims

The goal of Hokkaido Information University (HIU) is to educate new generations of professionals capable of independently identifying and addressing problems using information and communication technologies (ICT) while developing an open mind, self expression skills and teamwork competence. To achieve this aim, HIU seeks to admit students who can demonstrate a sound scholastic ability in addition to possessing the necessary reading, comprehension and language skills. The ability to think logically and the motivation to both learn and be involved in other extracurricular activities are also greatly valued.

Founding Principle

Hokkaido Information University was founded in 1989 by Dr. Saburo Matsuo, a pioneer of information education in Japan, with the goal of creating a university with new academic fields for an information-oriented society.
